Šibenik 2010, June 20 - 24, Solaris Holiday Resort****, Croatia

- 9th International Symposium of Croatian Metallurgical Society „Materials and Metallurgy” will be held as part of:**
- **150th anniversary** of THE ESTABLISHMENT OD STEEL INSTITUTE VDEH, DÜSSELDORF, Germany
 - **90th anniversary** of THE ESTABLISHMENT OF DNEPROPETROVSK NATIONAL UNIVERSITY, Dnepropetrovsk, Ukraine
 - **70th anniversary** of STUDIES OF METALLURGY OF UNIVERSITY OF LJUBLJANA, Slovenia
 - **60th anniversary** of THE ESTABLISHMENT OF INSTITUTE OF METALS AND TECHNOLOGY, Ljubljana, Slovenia
 - **55th anniversary** of THE ESTABLISHMENT OF INSTITUTE OF MATERIALS RESEARCH Slovak Academy of Sciences, Košice, Slovakia
 - **50th anniversary** of THE ESTABLISHMENT OF:
 - TECHNICAL FACULTY, UNIVERSITY OF RIJEKA, Rijeka, Croatia
 - FACULTY OF ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING AND NAVAL ARCHITECTURE, UNIVERSITY OF SPLIT, Split, Croatia
 - **20th anniversary** of INTENSE INTERNATIONAL COOPERATION OF CROATIAN METALLURGICAL SOCIETY, Zagreb, Croatia

The Croatian Metallurgical Society has the responsibility for the development and future of Croatia. Its purpose is contributing to Croatia's advancement, based on the promotion of metallurgy. This is chief goal and we shall realize it by linking all the various sciences and points of view, aware that the advancement and

development of Croatia can only be achieved through the united efforts of all.

Unlike other transitional states, Croatia still undergoes a stage of restructuring both ferrous and non-ferrous metallurgy. For metallurgy, this means a difficult economic situation, and in comparison to the level until

the war in 1991 the production is at the level below 10%.

After several unsuccessful restorations, Croatia privatized metallurgical companies. The future of the Croatian metallurgy depends exclusively of intentions of mostly foreign owners.

Naturally, this situation has an impact to the activity of the Croatian Metallurgical Society as well. Practically without any starting point and foundation in industry, CMS was financed by a modest money support from the Ministry of Science, Education and Sports of the Republic of Croatia.

However, thanks to voluntary work of CMS heads and members (not one fee has ever been paid in the last 18 years), the Society's activities are various, successful and recognizable in the world.

In addition to the mutual useful cooperation with many related societies, professional and scientific institutions in Croatia and abroad, the following needs to be stressed in particular:

1.

CMS is a publisher of the Journal Metallurgy the articles of which are being referred to in an array of international periodicals and databases), among other in ISI-SCI as well. Articles are being published by authors from over 30 states, and over 100 articles are being received per year.

2.

Every two years CMS organizes and holds symposiums called "Materials and Metallurgy". All of these symposiums are agreed on a global level – in the meetings of representatives of metallurgical associations. They are organized in early November in Düsseldorf, by Verein Deutscher Eisenhütten-leute (VDEh), the current name of VDEh's Stahlinstitut.

Eight international symposiums have been held so far:

- 1st: Zagreb - 1994 - February, 16-18 (88 lectures)
- 2nd: Split - 1996 - June, 20-22 (150 lectures)
- 3rd: Šibenik - 1998 - June, 25-27 (192 lectures)
- 4th: Opatija - 2000 - June, 25-29 (333 lectures)
- 5th: Šibenik - 2002 - June, 23-27 (375 lectures)
- 6th: Šibenik - 2004 - June, 20-24 (368 lectures)
- 7th: Šibenik - 2006 - June, 18-22 (475 lectures)
- 8th: Šibenik - 2008 - June, 22-26 (615 lectures)

The workshops of symposiums were held in plenary sessions (lecturers were invited and firms presented) and poster sections:

- Materials - section "A";
- Process metallurgy - section "B";
- Plastic processing "C" - section "C";
- Metallurgy and Related topics - section "D".

For the plenary lectures research topics were selected relating partly to the new materials and partly to the increase of efficiency of metallurgical procedures, decrease of required energy as well as improving of products.

Generally the reports were prepared for these

symposiums by the authors and coauthors from various world universities, institutes, academies and companies (in 8th Symposium over 900 authors and coauthors from 44 countries). It is to be emphasized that the scientists from four Croatian universities (Zagreb, Rijeka, Osijek and Split) participated in these symposiums.

In the discussions it was confirmed that the symposiums organized by Croatian Metallurgical Society have become traditional assembly of experts and scientists of various profiles: metallurgists, geologists, physicists, chemists, mechanical engineers etc.

With a demonstration of their best achievements they all assist the metallurgy in Croatia to call the same attention as it does otherwise in the world.

Detailed reviews of all the symposiums held so far were published and made public [1-37].

Based on the agreement of Meeting of World Metallurgical Societies, Düsseldorf, November 2007 y., the next 9th International Symposium of Croatian Metallurgical Society "Materials and Metallurgy" will be held 2010 - June 20 - 24, Solaris Holiday Resort, Šibenik, Croatia.
